

Protect Indoor Camera

HD Wi-Fi Motion Activated Cloud Security Camera

See and hear what's happening at your home or business from anywhere using your smartphone¹ or tablet.

Y-cam instantly alerts you when motion is detected. Watch live or review your last seven days of recordings which are securely stored in your cloud account, safe from theft. Includes Free rolling 7 days cloud storage*. Add as many indoor and outdoor cameras as you like and manage them from one account. Y-cam Protect Indoor Camera is ideal for watching entrances, pets and minding your loved ones anytime of the day or night.

Includes Free Rolling 7 days Cloud Storage*

Save the clips that matter. Every movement detected during the last 7 days is recorded* and stored in your secure online account, ready to view on your smart phone.

Easy Three Step Set up

Easy step by step set up. Just download the Y-cam app, plug in the power cable and set it up from your iOS or Android smartphone.

Motion Activated Alerts and Recordings

See what happens when you are not there. Y-cam detects and notifies your smartphone¹ instantly when motion is detected in your home. Set up your motion recording zone on areas such as doorways and windows; to ensure you are only alerted when it matters.

Let's get mobile!

Download the Y-cam App FREE from the iOS App Store or Google Play. View your recorded videos and stream live from anywhere at any time, as long as you are connected to the internet.

Home Network Friendly

Y-cam Indoor Camera only records when something happens so it doesn't need to constantly battle for the internet with other connected mobile devices in your home. Enjoy minimal impact on your surfing and download speeds and stay within your data allowance.

Safe and Secure

Even if your security camera is vandalised or stolen, your clips are safe in the cloud and fully protected using industry standard encryption.

Looks great

Sleek and stylish, designed to fit discreetly into any home décor.

Location Recording

Automatically deactivates your camera's motion recording when you arrive home, and activates recording when you leave, based on the location of your smartphone².

On Demand Recording

Capture that moment; record what you want, when you want at the touch of a button. Just hit record when watching live to capture a moment in time up to five minutes long.

¹ As long as you have an active internet / data connection.

² Message will be sent within approx. 100-200m of set location.

Product

Name: Y-cam Protect Indoor Camera

Part code: HMHDI08

EAN code: 5060158901371

Camera

Image resolution: 1 megapixel (1280 x 720), HD 720p

Field of view (Diagonal): 100°

Focal length: 2.78mm
