

787-32 Slide Door Chain Fitting Instructions

Installing a Slide Door Chain

To fit a Slide Door Chain you will require the following tools:

- Screwdriver
- Bradawl (or drill with 2.5mm drill bit)
- Pencil

- Select position for Door Chain.
- Mark screw holes for chain anchor on door and screw into position.
- Position chain hook on door frame level with chain anchor. Mark screw holes. Fit chain and screw into position.

Additional Information

Operation - Slide flat plate into slot in chain anchor.

Security Tips - Always engage chain and ask for identification before opening the door to strangers. For additional safety we recommend the use of an ERA 160° Door Viewer (Ref: 786) or ERA 180° Door Viewer (Ref:784).

Maintenance - Use a moist cloth only, household abrasives or solvents may affect surface finish.
